Pre-contractual information / note on exchange rate risks

Silver granules are a valuable raw material that is traded on stock exchanges worldwide. This means that the price of silver on the S-Deposito account is also dependent on the development of the stock exchange price. Moreover, the wholesale premiums for the physical purchase of the commodity also fluctuate and can rise by several percent in extreme market situations. Furthermore, the USD / CHF, USD / EUR, CHF / EUR exchange rates have a significant influence on prices, depending on the currency in which trading takes place. Even though silver has an intrinsic value, which represents a natural price floor, its price can fall significantly below the purchase price. Price fluctuations are greater for silver than for gold. Selling silver at an inopportune time can thus result in substantial losses. The purchase of silver, including silver granules in the S-Deposito, should be associated with a long-term investment horizon. BB Wertmetall AG, its partners and brokers expressly do not make any forecasts as to the price development of silver in the short or medium term.

Declaration of the Applicant(s) / contracting partner(s)

I/we have read and agree to the basic documents of S-Deposito General Terms and Conditions as of 01/2023 (Special Terms and Conditions S-Deposito, General Terms and Conditions, Terms and Conditions of Ordering, Delivery and Payment, Terms and Conditions of Contract for Collective Safekeeping and Information on Data Processing) for this contract, as well as the data protection declaration at https://bb-wertmetall.ch/datenschutz, the exclusion of revocation and a copy of this application. I/we agree to the transmission of contractual information to my/our email address(es) and telephone number(s).

Exclusion of revocation

A right of revocation does not exist for contracts for the delivery of goods whose price depends on fluctuations on the raw material and foreign exchange market and on which the entrepreneur has no influence. With regard to the precious metal sold by BB Wertmetall AG under this contract, there is therefore no right of revocation.
